The New Lambeth Biodiversity Action Plan: Protecting Lambeth’s Wildlife for Our Future

Lambeth is full of wildlife from Waterloo in the north down to Streatham and West Norwood in the south. Our wildlife includes bats, wild birds, amphibians such as toads and frogs, mammals including hedgehogs, and numerous wild plants and trees in gardens, parks and woodlands.

To help protect this wonderful wildlife Lambeth Council has just updated the Lambeth Biodiversity Action Plan (BAP), which we can use to manage and improve the borough through a series of practical actions.

However, we can’t do this on our own. We need the support and involvement of other landowners as well as Lambeth’s residents, groups and communities to make the actions in the BAP become reality. We need everybody who cares about the borough’s wildlife to take ownership of the Lambeth BAP, and make sure it’s delivered on the ground so that the places and species we value and cherish remain for future generations to appreciate and enjoy.

For more information on the Lambeth BAP, including how to get involved, go to [www.lambeth.gov.uk/leisure-parks-and-libraries/parks/lambeth-biodiversity-action-plan](http://www.lambeth.gov.uk/leisure-parks-and-libraries/parks/lambeth-biodiversity-action-plan), or contact Lambeth Landscapes on 0207 926 6209 or at [parks@lambeth.gov.uk](mailto:parks@lambeth.gov.uk)
